

Instructional	Community	Campus Needs/Resources	Student Support
Not many chances for failing students to redeems themselves. Low GPA reduces other benefits.	Easier methods to connect between classmates to get help on group projects.	A rest area is needed for severely stressed-out students	Would need to inspire a sense of feeling needed and wanted for a unique focus
Limited to what the college wants to teach instead of what students want to learn.	Difficult entry into communities.	Medical center needs a total revamp	Study environment for creative majors; ie it's ok to be loud
Classes make everyone conform to the same timed learning curve.	Encourage club membership so students meet others with common interests.	Money to use machines; 3D printing, CNC	Hard to find students with same interests
Digital tutoring needed.	No scrams.	Lack of money to pay for gas, food, books, etc	Lack of fun places on the campus
How do you teach something like intuition, these things should be practiced in lower-level education systems.	Adaptives programs that deal with wide diverse populations.	Many students do not have their own laptop	No guaranteed long-term or even short-term benefits. Students from different universities and colleges end up with same job
Classrooms not creativity or innovation driven.	No integration between edu and community industry.	More consistency in transferring courses school-to-school	Apathy, as good as a club is, the representation isn't there
Standarized tests test your memorization not your knowledge or application.	Students don't know about access.	Lack of money to pay for some essentials	Not enough internship opportunities
More staff and writing center needed.	Students register for community colleges by default without knowing what they offer.	Cannot rent a laptop	No jobs without experience, no experience without a job
Conformity or creativty in most classes.	No access to community.	Not all have access to electronics	Everyone has a different agenda/academia
Students are being taught concepts but not how to practically apply them.	Recognition as a major college.	Public transportation in Roseville	No direct job placement
Little application exams all memorization and regurgitation.	Matrix of domination.	Stop using useless textbooks	Lack of paid experience to get jobs

Instructional	Community	Campus Needs/Resources	Student Support
Professor-student dynamic allows for no constructive criticism.	Lack of communication outside class.	Books are too expensive	Lack of building work experience
More projects, less reports or else the knowledge never seems applicable or important.	Groups don't fit well together.	Offer a science writing class	Lack of entry to workforce
Give time to do work in the classroom.	Nobody wants to listen to each other's opinion.	Studios for interviews and general dialogue	Individualistic school culture; everyone walks a different path
More research-based learning needed.	Less cooperation.	Limited space/lab time for working on creative projects, barely enough for assignments	How to incorporate more students into Maker Matic
School sometimes is so boring.	Goals in school are all negatively reinforced, no positive motivation.	Hatred of access-code textbooks	Will students get exposure to experienced employers?
Change would need to begin not in college but high, middle and elementary schools. System does not teach community.	Status quo?	Lack of time for students	Why don't we add or at least place all job postings on a separate poster board
Online math homework is frustrating and doesn't teach.	Defining status quo.	Not enough group seating with good lighting or outlets	Skills certificates should be more respected in a career world; currently inferior to AA/AS
No victory until degree, only keeping up till then.	No politics in lectures.	Make boring classes fun and interesting to students	No personal attachment of work/education
Business classes don't teach any real-world business experience.	Teachers performance not "graded" and students learning can be stunted.	No time for extra projects	Not enough initiatives, people just want to go class to class
Introducing a new subject inhibits students' ability to succeed	Teachers who make you learn through book vs. conversation.	Set class times might not work	How do we motivate students to join workshops/internships?

Instructional	Community	Campus Needs/Resources	Student Support
College doesn't teach students to use certain computer programs many companies use	Will a solution center that eliminated status quo & barriers for everyone be sustainable?	Lack of varied teaching styles	Lack of interests/major focus internship/work and connections
Lecture-based classrooms discourage student cooperation	Define non-traditional.	Traffic at certain times like 12pm and 5pm is horrible	Transition to classes to company setting
Lack of communication between teachers and students	How to define barriers and how to effect them.	Parking issues cause tardiness	Less general ed
We learn to pass tests, not to gain knowledge	Barriers are subjective/undefined.	College information desk	General ed can hinder people who already have an idea of what they want to do
Professors should connect students with job opportunities	Impossible to solve everyone's problems. Will eventually have to follow some sort of status quo.	Libraries need updates textbooks	No guarantee that our degree will provide
Lecture-based classes make it the norm for the professor to speak the whole time and eliminate student interaction	Status quo not defined.	Expensive books with little/no use	Scam posters block other posters from being seen
Classrooms restrictive and mostly just lecture	Lack of announcements.	Limited resources available. Ie faculty, tech, space, etc.	In general, there is not enough content in a class for a portfolio to buikd
Instructor who cares; myth or truth?	Home page on website not used at all.	Resources that will be pooled and viable outsourcing	Educational requirements are met but not job experience
Professors in GE teach to the job	What if we sent out weekly emails sharing upcoming events?	How to secure resources to provide to students	Classes should be more energized and have more hands-on teaching
Have professors give more visual notes	Students not given a voice on campus matters.	Limited access to machines	Inspire curiosity
No teaching judgement or how to make own decisions	Lack of communication leads to lack of student awareness.	Internet in school is inconsistent	Make the 60 units program more available
More discussion-driven classes	Clubs: Hard to find classrooms/places to meet.	Lack of awareness of available resources	General ed should not be a requirement

Instructional	Community	Campus Needs/Resources	Student Support
How much info expected to know after one class period	Technology used to bring people together.	Bookstore doesn't like access codes or codes too expensive	Not knowing what they want
One way learning	School newspaper.	Hire more specialized researchers	Learning isn't fun; doing stuff with what you've learned is
Instructors care more about grades than the well-being of students	Access to things like Hackerlab aren't advertised.	We need more researchers	How broad or specific will the needs of students be met?
More flexibility in classes	Events on campus not known to students.	Renting books costs about the same as buying them	Current educational standards don't necessarily translate to workplace
All professors should post grades on Canvas	Lack of connection in the college amongst peers & staff outside classes.	Editing software on every computer	Students are too apathetic
More professors should use Canvas	How to use social media to bring people together.	Lack of time and resources to attend club meetings and school activities	Find ways to create fraternities based on shared interests
Bad professors don't teach but still have job	Lack of advertising of grants, scholarships & other financial aids.	No parking/very far parking	People have differing interests; you cannot just generalize
Make classrooms more involving and encourage participation	Community colleges are looked down on or seen as inferior learning.	Separate buildings isolates students by major	Language barrier
No allowance for free time; too much time for class	Community & connection.	Consideration that there is the possibility that a solution center could cause more barriers	Fear of failure
Teachers should take RateMyProfessor.com more seriously	Counselling.	More availability and affordability for dorms on campus	Center would need to encourage those who usually are uninterested
Grade-based learning system	Difficulty in developing trust.	Not enough equipment for everyone's majors	Limited cross-major social interaction
Remove pre-requisites	Where to start?	Food is expensive; hard for students to get nutrition	No social network that is fun

Instructional	Community	Campus Needs/Resources	Student Support
Keep pre-college level college	Its impossible to solve everyone's problems, so how to create a system that covers a vast amount of different barriers.	Traffic and parking are stressful	Too many classes for transfer
Curriculum change interest-based	Nothing to foster socialization and networking.	How is something like this paid for and does is have dedicated staff to break barriers	Many divisions based on major limit connection
Classes are too long	Failure should not be punished, it should be encouraged as it is going to happen but learn from this & do better next time.	Labs are valuable to learning experience	
Taught that if fail you're not smart; not didn't work hard enough	No life skills are taughtm we are designed to be forced to be independent like robots who must learn with no true teachers.	What physical space are we limited to?	
Too little respect for others' personal opinions	No yearbook.	Transportation to school	
Not enough interaction in higher-level courses	Lack of life and adult skills taught.	Getting books at the start of the semester takes too long because the bookstore gets crowded	
Lack of taking classes anywhere	Getting over the political divide to get college and community together.	Some classrooms are severely outdated	
Forced to take classes that do not matter	Establish an all-student connection channel to advertise for clubs, events, and opportunities.	Too large classes; no interaction	

Instructional	Community	Campus Needs/Resources	Student Support
Classes are longer in evenings and morning even though they are the same	We should establish areas where students can work out their shared problems together.	Too many students, not enough teachers/classes. People who don't complete major because of wait list or credits	
How to learn	Don't meet or get to know other students inside class. Come to class and leave.	Classes too small for a freeform creative environment	
Professors should share more with their students to build relationships	Trying to solve everyone's problems.	Desk setups limit student interaction	
Things need to be waldorf school	Getting students to work together.	Not enough online classes	
Not enough real-world info taught	Attendance to school events and clubs.	More classes available at different times of every day	
No problem-solution brainstorm learning	Community colleges should be more involved in their communities and vice versa!	Not all credits are transferrable when you get to a four-year	
Lack of real-life application of what is learned in school	People are more set on sharing their own beliefs, not hearing out others.	Would require volunteers from all types of lifestyles to consider options for individual	
English classes are very similar to ones in high school; study the same material	No preparation for new students/orientation.	Not enough parking areas	
Teachers teach one way; resist change	Push badges (knowledge) more on campus.	How to get to school	
More opportunities to ask questions on homework and work through problems as a group	How can we encourage students to engage with each other more?	Lack of hostel for students	
Class not driven at own pace to allow best learning	Incorporation of foreign studies on campus.	Find a carpool system for students	

Instructional	Community	Campus Needs/Resources	Student Support
Would require unique solution, mentors for each individual	Online website is not easy to navigate.	Bookstore needs to compete with Amazon better	
Classes should have various structures catering to all kinds of learning styles	No/little chances to network.	No place within the campus for social activities	
Project-based learning	Connect students with legitimate employers.	Who is a willing volunteer to assist with a solution center	
Group projects that actually go towards a goal and not a grade	Make LinkedIn more relevant.	Who will advocate for a solution center and funds for it?	
No learning job skills, only repeat	College has not enough community interaction.	Leaving campus during most times of the day is a big struggle	
No learning about self-guidance without someone over shoulder	How to get local businesses more involved at Sierra.	Poor facilities! too many students learning from one teacher with no mic and a whiteboard	
No thought-provoking questions, but wait for teachers to tell us answers	Home page of Sierra College doesn't attract attention.	Almost free meal needs to be expanded in time	
Make learning a natural process	Associate Degree from Community College is seen as lesser than from a 4 year college.	One student per car. Too many cars cause traffic	
Teachers don't listen to individuals' needs	Will businesses in the community be able to profit from a solution center.	No coffee machines on campus	
The interactions and activities are mainly within the classroom	A reality tv show in this college.	Diversity of businesses on campus	
Jump from lower division to high division class is too high	Promote more.	Too many commitments outside of school	
How can we get students to take advantage of office hours?	There is no cooperation. This is key.	Limited internship opportunities, motivation	
Education out of campus support	How to make friends?	Textbooks should not be required	

Instructional	Community	Campus Needs/Resources	Student Support
Not enough office hours available for help with every class	Feels disconnected community-wise.	Regulate poster boards	
Inconsistency in teaching	Lack of alumni relations and connections.	Tuition increases faster than a student's present and future wage	
Some classes require more work per week than other classes that have the same units	Keep students in school.	Lack of paid internships	
In-class guidance expected. In job, intuition and judgement expected	Laws need to be changed.	Accessibility to students	
How to write an A essay?	Connect instructors with students more efficiently.	No access to companies within interets	
Exams only count toward grade; prevent real knowledge	Hard to get help outside class and sometimes not helpful.	Create a system to get from parking to class	
Exams examining rather than knowing info	What motivates students to go to school.	Lack of resources to at-risk students	
Some classes have word count requirements that are pointless	Make sure we graduate with a guaranteed job.	No single parking structure	
Computer training for teachers	How to make college home away from home?	Find a way to get money for students	
Professors should not involve politics while lecturing	Motivation.	Everyone is told to work harder on weakness rather than develop strength	
Lectures force students to copy down slideshows, not learn concepts	Conversation not open.	Too much homework nightly	
More hands-on, career-focused stuff	No one usually likes listening to other people's solutions unless it relates to them,	No access to help at odd hours	

Instructional	Community	Campus Needs/Resources	Student Support
Classes only taught ot one learning style, not every one	Campus tours aren't included in new student orientation.	Food in cafeteria is overpriced	
Students leave school with knowledge to succeed in classroom settings, not workplace setting	Counselors give wrong info/ just don't care.		
Lack of creativity in professors	Many people are tired and stressed.		
How to teach and skills to succeed	Well-being at home.		
Assignments don't foster learning; they foster memorization	Create more involvement in school.		
Failure as punishment creates a huge barrier which does not allow learning. This should be corrected as "just try again"	Integration is not open enough.		
	Not enough initiative to creat change and community.		
	What is RISE program?		
	Promote medical center.		
	The people who stop you to vote or for a gym are intrusive.		
	Too much pestering		
	Less pestering (too much).		
	Better counseling and mental health awareness.		
	Social media.		
	No social media.		
	Lack of community outreach.		
	Connect community.		

Instructional	Community	Campus Needs/Resources	Student Support
	<p>What is a way to advertise to students in an engaging way? (Posters are not effective!)</p> <p>No advertisements for events for online students.</p>
